- Annualized net premiums are calculated by using multipliers for various premium payment terms to the premium per payment. In single premium contracts, the amount is calculated by dividing the premium by the duration of the policy.
  - 2. Annualized net premiums for medical and survival benefits include (a) premiums related to medical benefits such as hospitalization and surgery benefits, (b) premiums related to survival benefits such as specific illness and nursing benefits, and (c) premiums related to premium waiver benefits, in which disability cause is excluded but causes such as specific illness and nursing care are included.
  - 3. "New policies" include net increase by conversion.
